

# UDAY NAGIRI

## COMPUTER SCIENCE STUDENT

Vizianagaram, India | +91-9505016425 | udaybgms45@gmail.com | udaynagiri.netmaxin.in

---

### SUMMARY

Computer Science undergraduate (2023–2027) specializing in IoT, Cybersecurity, and Blockchain with strong full-stack development expertise. Built an AI-powered Smart City web platform featuring real-time services and geo-location integration. Proficient in Next.js, React, Tailwind CSS, Node.js, and MongoDB with experience in secure authentication and cloud deployment. Passionate about developing scalable, user-centric applications.

### PROFESSIONAL EXPERIENCE

#### Netmaxin Group

Feb 2024 - Present

- Developed responsive and user-friendly websites using React/Next.js and Tailwind CSS.
- Converted client requirements into functional web solutions through team collaboration.
- Integrated RESTful APIs and optimized performance for speed and scalability.
- Maintained UI/UX quality, cross-browser compatibility, and timely delivery.

### PROJECTS

#### AI Smart City Companion

- Full Stack Developer | MERN Stack Project
- Built a scalable Smart City digital platform enabling real-time service discovery, AI-driven recommendations, civic issue tracking, and event booking management. Designed a role-based authentication system and analytics dashboard for city administrators.

#### Personal Portfolio Website

- Developed a responsive portfolio using Next.js and Tailwind CSS with reusable component architecture.
- Implemented optimized animations and transitions using Framer Motion.
- Applied performance optimization, routing structure, and clean UI/UX principles for scalability.

### SKILLS

- Programming Languages: Python,C, C++, JavaScript, Java,
- Web Development: Next.js, React.js, HTML5, CSS3, Tailwind CSS
- Blockchain Concepts: Distributed Ledger, Consensus (PoW, PoS), Smart Contracts, Cryptographic Hashing, Public & Private Blockchains
- Database: MySQL
- Tools: GitHub, VS Code, Framer,Figma,canva

### EDUCATION

#### Bachelor of Technology – Computer Science

Sep 2023 - Present

Specialization: IoT, Cybersecurity & Blockchain Technology

- Blockchain Technology | IoT Systems | Software-Defined Networking | Web Technologies | Database Management Systems | Cybersecurity Fundamentals

### ADDITIONAL INFORMATION

- **Languages:** English, Hindi, Telugu.
- **Certifications:** , Introduction to Cybersecurity – Cisco Networking Academy, Generative AI & Lean Six Sigma White Belt, Agentic Ai day , prompt engineering , AI engineer python essentials.
